

# HUBBARDS COMMUNITY PLAN

## ACTIVE TRANSPORTATION

Hubbards has a collection of formal and informal active transportation options for residents and visitors to use to move throughout the community.

The Rum Runners Trail (named after prohibition-era bootleggers known as 'Rum Runners') is a flat, multi-use, trail that once served as the local rail route for train service along the South

Shore. This trail runs from Halifax to the Town of Lunenburg and crosses Highway 3 within Hubbards; however, there is no formal crossing for the trail. The trail can be accessed year-round, including for walking and snowshoeing use in the winter months.

Approximately 100 metres from where the Rum Runners Trail crosses Highway 3 is the lone sidewalk in

Hubbards. The sidewalk is located on the south side of Highway 3 and is approximately 500 metres in length. The sidewalk is the responsibility of the Municipality of the District of Chester.

Active transportation infrastructure and routes need not be formal, however, and they can also include informal routes and infrastructure people use to get to places they live, work, and play. There are a number of trail routes that weave throughout the project area, branching off of existing roads or trails.

Improving and expanding active transportation infrastructure in Hubbards and enhancing connectivity with the existing sidewalk and trails is a major focus of the Community Plan.
